

“To teach is to touch lives forever.”
~Anonymous~

To Whom It May Concern:

Web-Centric Alternative Certification Program requires our professional teaching candidates to observe other classroom teachers in action. We feel it is important for our students to observe other teachers to see real-world examples of classroom interaction. The main purpose of the observation is to watch different teaching techniques and observe different styles of classroom management.

Thank you for allowing our Web-Centric Alternative Certification student to complete classroom observations in your district. If you need further information, please call 832.220.3451.
