

TEXES Content Exam

The TEXES content exam tests teacher candidates on their content knowledge to confirm subject-matter competency before they enter their field experience.

Before you will be approved for the first attempt at the content exam, you must complete test approval requirements that include curriculum and study material components. Please refer to the Test Approval Guidelines link in the Downloads tab for the specific requirements for your exam.

You must schedule your exam within 30 days and test within 2 months of completing the test approval requirements or your approval will be removed until you can again achieve the required score on the practice test to demonstrate continued proficiency.

The state preparation manual for each TEXES content exam can be accessed on the [Pearson website](#).

To create your Pearson account and schedule your exam, please click [here](#) for instructions.

If you require alternative testing arrangements, you can request them through Pearson. Please review the eligibility information and instructions [here](#) before registering for and scheduling your exam.

If you have any questions about your TEXES content exam, test approval requirements, or scheduling your content test, please contact your program specialist.
